

E-book ‘Manual of the Neurological Examination – for Neurologists in Training’ – 4th English Edition

License Agreement as to the utilization and copyright of the e-book by the 4th English Edition from the Website of ILIA STATE UNIVERSITY :

1. The Authors allow the online utilization of the e-book (4th English Edition) provided by the ILIA STATE UNIVERSITY (ISU), Tbilisi, Georgia via their website at no cost. The e-book is aimed at training physicians and students. It may be used by any interested persons including members of Medical Universities and any Medical Society in Georgia.
2. The e-book becomes available via online access to the ISU Website. On this Website, any individual interested in downloading the e-book may search for the file of the English Edition that can then be downloaded. There is no fee involved by the authors nor by ISU.. Together with the file of the e-Book an abbreviated version of this license agreement including some hints (*see Appendix*) should be automatically downloaded in order to inform the user.
The responsible representative of the ISU signing this agreement consents as to this procedure .
The authors of the e-book declare that they have created the e-book as volunteers affiliated with and employed by academic institutions as outlined in the e-book. There was no remuneration to any one the authors for preparing and writing this e-book.
3. Any recipient of the e-book is informed that e-book must not be altered except after receiving a written permission by the Corresponding Author through the ISU library. Selling the utilization of the e-book or parts thereof to commercially interested third parties is not permitted.
4. The authors also declare that granting online utilization of the English Edition of the e-book to the ISU does not preclude nor limit the already existing utilization rights of using this 4th Edition by the German Society of Neurology (DGN) or by other Academic Institutions or Medical Societies and to students at universities around the European Union and Turkey.
5. Once technical innovation allows the e-book to be converted in full length to other formats than the present *epub* format the authors grant the right to do so. The present *epub* format runs well with i-Pads or I-Phones from Apple. On Microsoft PCs the App. ‘Thorium’ may be

used. With Android systems on tablets or smart phones newer Apps for e-books may work better than older ones.

6. **Termination of this Agreement:**

This Agreement about the online utilization of the e-book can be terminated by the authors in case of grave and extraordinary vulnerations of this Agreement.

7. **Disclaimer:**

This e-Book is intended for the education of staff, trainees, and students. The views in this e-book are those of the authors, as a result of their large clinical experience and analysis of the existing body of literature. Any products or resources are not specifically endorsed by the Licensee(s) or by the authors, but may be provided for illustrative purposes. The content of this e-book should not be considered the sole clinical guideline used in patient management, but rather as a repository of a fraction of the existing evidence in clinical practice. The basis of the evidence must be explored individually by any user, on a case-by-case consideration. Using this e-book implies awareness of such limitations and consent to hold no parties liable who may be associated with the Licensee(s) or the authors for any actions derived from the use of the e-book.
